Education

PhD in Computer Science **Nov. 2023 – present**
LAMSADE, Université Paris-Dauphine – PSL, Paris, France

- Thesis: *Leveraging Machine Learning and Deep Learning for Enhanced Predictive Process Monitoring in Business Processes.*
- Supervisors: Daniela Grigori (Paris-Dauphine – PSL), Han van der Aa (University of Vienna).

M.Sc. Business Informatics **Sep. 2021 – Oct. 2023**
University of Mannheim, Mannheim, Germany

- Specialisation: Data Science, **Process Mining** and Machine Learning. Final grade: 2.3 (German scale).

B.Sc. Information Management and Information Systems **Sep. 2017 – June 2021**
Sichuan Agricultural University, Sichuan, China

- Ranked in the **top 5%** of the cohort.

Publications & Working Papers

- **Yuan, J.**, Grigori, D., & van der Aa, H. (2024). *Enhancing Predictive Process Monitoring Using Semantic Information.* **ICPM 2024**, ML4PM Workshop, pp. 293–305. Springer.
- **Yuan, J.** et al. *Temporal Prediction in Process Monitoring via Hawkes Process Transformers.* Preprint, arXiv:2609.21382.
- **Yuan, J.** et al. *Causal Mechanisms for Out-of-Distribution Generalisation in Process Prediction.*

Teaching Experience

Doctoral Teaching Assistant **Sep. 2024 – present**
Université Paris-Dauphine – PSL, Paris, France

- Tutorials, labs, project supervision and marking at BSc and MSc level (MIAGE, IASD): Machine Learning, Artificial Intelligence, Data Science project, Operating Systems.

Professional Experience

Research Assistant — Speech Emotion Detection **Aug. 2022 – May 2023**
inES, University of Mannheim, Mannheim, Germany

- Designed a speaker-diarisation pipeline and voice gender classifiers (XGBoost, Random Forest, fine-tuned ResNet50), reaching **93%** speaker-separation accuracy.

Research Assistant — Rail–Sea Cloud Platform **Sep. 2019 – June 2021**
Sichuan Agricultural University, Sichuan, China

- Contributed to a distributed cloud platform for rail–sea freight (microservices, Docker, REST APIs).

Technical Skills & Languages

Programming & ML	Python (PyTorch, scikit-learn), SQL, Java, R, Git; deep learning, LLMs
Process Mining	BPMN 2.0, PM4Py, event-log preparation, predictive process monitoring
Languages	Chinese (native), English (C1), French (B2), German (B1)
